SecMaker Showroom

Getting started

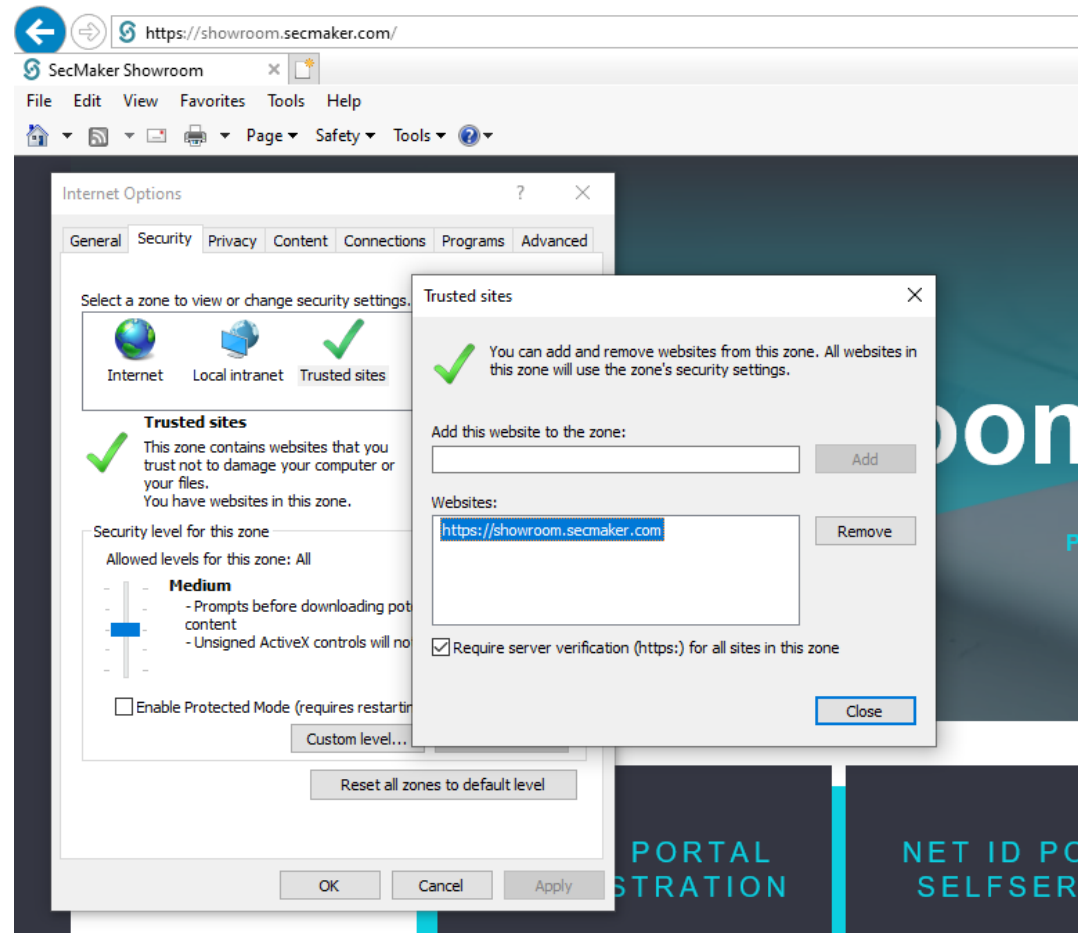

showroom.secmaker.com

Trust Showroom

Add showroom site to trusted sites zone in Internet Explorer

<https://showroom.secmaker.com>

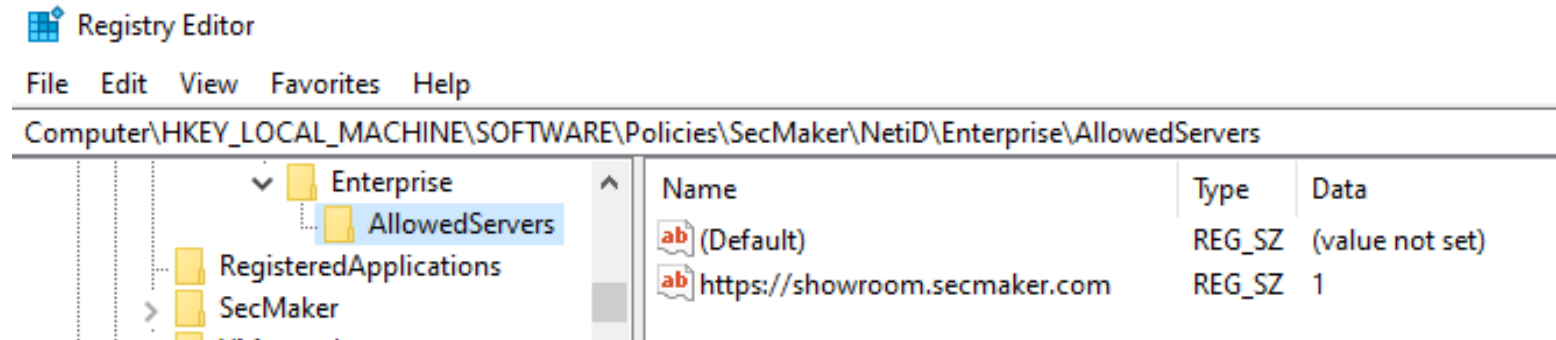

Trust Showroom

1. Install Net iD Enterprise and reboot PC
2. Add showroom site to configuration

```
[HKEY_LOCAL_MACHINE\SOFTWARE\Policies\SecMaker\NetID\Enterprise\AllowedServers]  
"https://showroom.secmaker.com"="1"
```

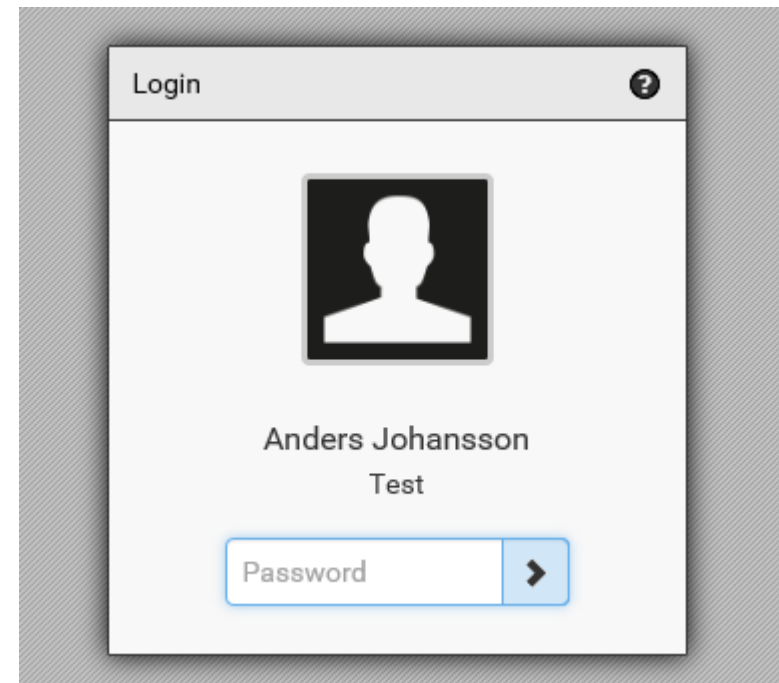

**Not needed if Showroom specific packages are installed.*

<https://showroom.secmaker.com/nie/setup/>

Enroll Access

1. User login with token to selfservice
2. Enroll to Net iD Access

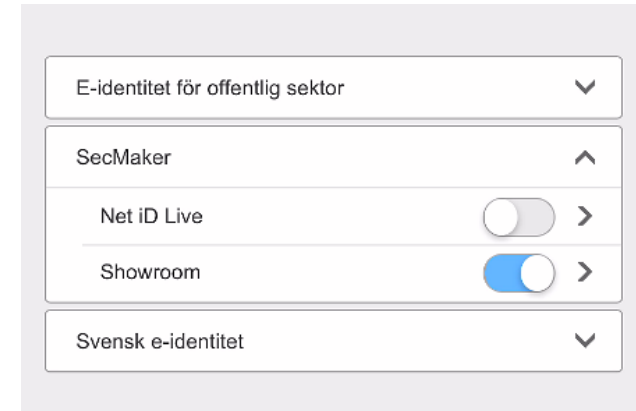

Enroll Access

1. User login with token to selfservice
2. Enroll to Net iD Access
3. **Approve terms and sign enrollment**

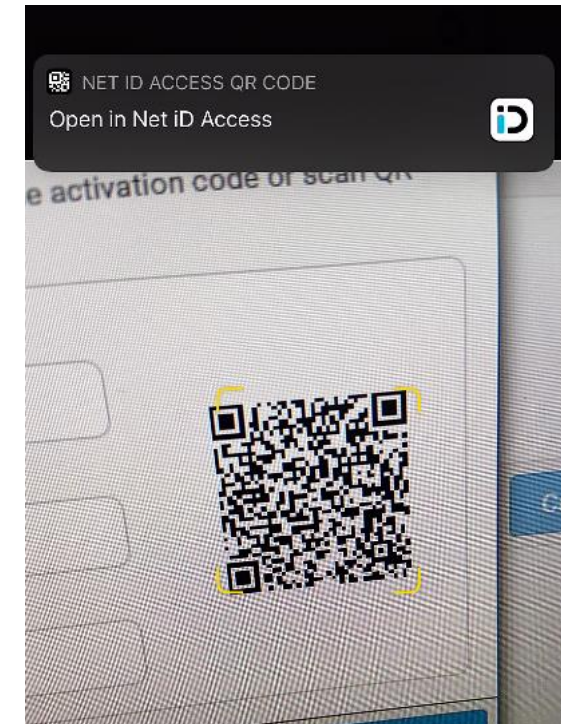

The screenshot displays the 'Enroll to Net iD Access (step 2 of 6)' interface. The user profile shows 'Test User 1' with ID '195506240001' and role 'Test'. An 'Information' dialog box is overlaid, providing instructions: '- Start Net iD Access application and enter the activation code or scan QR-code with mobile camera.' The dialog contains three input fields: 'Server' with the value '14', 'User' with the value '195506240001', and 'One-time password' with the value '31 47 42 37'. A QR code is visible on the right side of the dialog, and an 'OK' button is at the bottom right.

Enroll Access

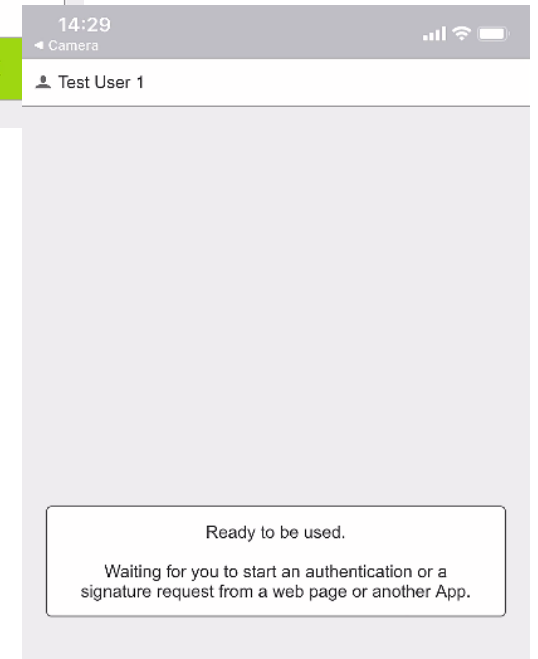

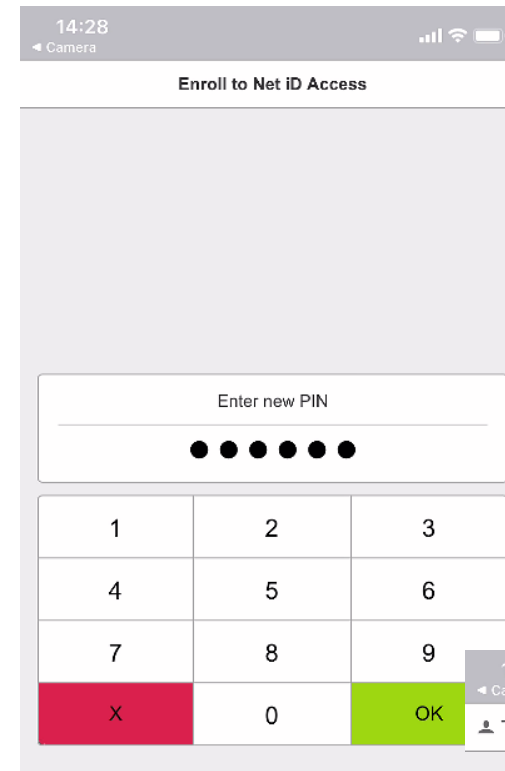

1. User login with token to selfservice
2. Enroll to Net iD Access
3. Approve terms and sign enrollment
4. Install Net iD Access app
5. Activate SecMaker Showroom Connection
6. Scan QR code with mobile camera to proceed with enrollment

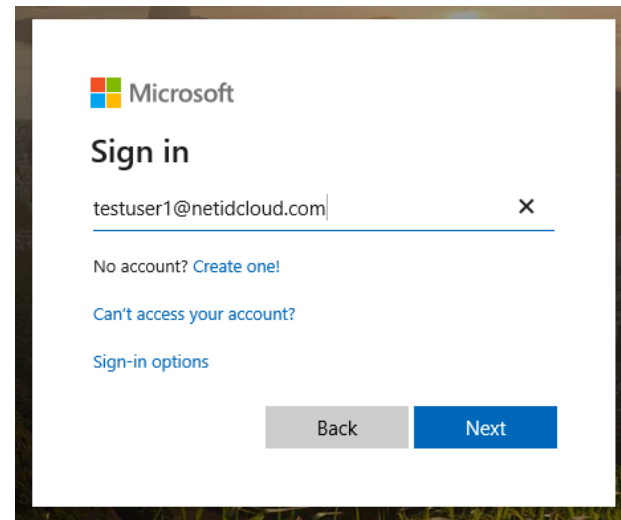

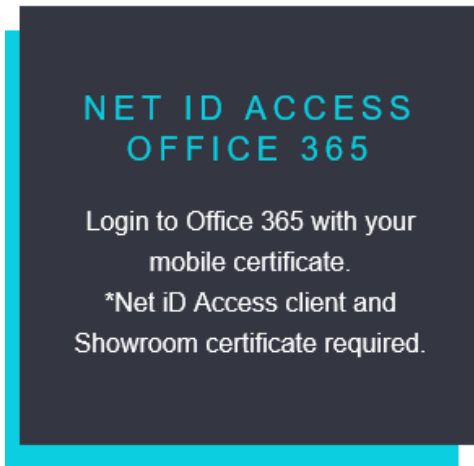

Enroll Access

1. User login with token to selfservice
2. Enroll to Net iD Access
3. Approve terms and sign enrollment
4. Install Net iD Access app
5. Activate SecMaker Showroom Connection
6. Scan QR code with mobile camera to proceed with enrollment
7. Enter new PIN and enroll
